DROSIE’S BACKYARD SCIENCE

Lesson 2: From Egg to Fly

Life cycle & adult anatomy | Storybook pages 4–10

Name: _____ Date: _____

LET’S EXPLORE

Make a four-stage life cycle wheel and label a fly.

1. Write the four life-cycle stages in order.

_____

_____

2. Name three adult fly body parts and what they do.

_____

_____

DRAW, DIAGRAM, OR GRAPH YOUR IDEA

FACILITATOR MINI-GUIDE

Lesson 2: From Egg to Fly

Storybook pages 4–10 | Grades K–3; adaptable to 4–5

Learning goal

Sequence egg, larva, pupa, and adult; identify head, thorax, abdomen, wings, legs, and antennae.

Before reading

Invite children to share what they already know. Record questions without immediately correcting every guess.

During reading

Pause for careful observations, ask what the illustrations show, and distinguish what is visible from what is inferred.

After reading

Make a four-stage life cycle wheel and label a fly.

Adaptation

K–1: use drawing and oral responses. Grades 2–3: add labels and a sentence of evidence. Grades 4–5: discuss uncertainty, fair comparisons, or limitations.

Safety and accuracy

Use supervised, age-appropriate materials. Describe evidence carefully and invite multiple ways of participating.
