DROSIE'S BACKYARD SCIENCE

Lesson 3: Every Fly Is Different

Discovering traits and variation | Storybook pages 11–14

Name: _____ Date: _____

LET'S EXPLORE

Sort photographs into observable trait groups without guessing genetic causes.

1. Name one feature two flies can share.

_____

_____

2. Name one feature that can differ between flies.

_____

_____

FACILITATOR MINI-GUIDE

Lesson 3: Every Fly Is Different

Storybook pages 11–14 | Grades K–3; adaptable to 4–5

Learning goal

Compare sex-associated appearance, red and white eyes, and straight and curly wings.

Before reading

Invite children to share what they already know. Record questions without immediately correcting every guess.

During reading

Pause for careful observations, ask what the illustrations show, and distinguish what is visible from what is inferred.

After reading

Sort photographs into observable trait groups without guessing genetic causes.

Adaptation

K–1: use drawing and oral responses. Grades 2–3: add labels and a sentence of evidence. Grades 4–5: discuss uncertainty, fair comparisons, or limitations.

Safety and accuracy

Use supervised, age-appropriate materials. Describe evidence carefully and invite multiple ways of participating.
