Lesson 4: Inside a Research Laboratory

Tools of discovery | Storybook pages 15–18

Name: _____ Date: _____

LET’S EXPLORE

Match scientific tools to their functions and design a lab map.

1. Which tool helps you look closely at a fly?

_____

_____

2. Which tool would you use to record observations?

_____

_____

DRAW, DIAGRAM, OR GRAPH YOUR IDEA

FACILITATOR MINI-GUIDE

Lesson 4: Inside a Research Laboratory

Storybook pages 15–18 | Grades K–3; adaptable to 4–5

Learning goal

Explore how stereomicroscopes, pipettes, Petri dishes, vials, timers, and notebooks help scientists.

Before reading

Invite children to share what they already know. Record questions without immediately correcting every guess.

During reading

Pause for careful observations, ask what the illustrations show, and distinguish what is visible from what is inferred.

After reading

Match scientific tools to their functions and design a lab map.

Adaptation

K–1: use drawing and oral responses. Grades 2–3: add labels and a sentence of evidence. Grades 4–5: discuss uncertainty, fair comparisons, or limitations.

Safety and accuracy

Use supervised, age-appropriate materials. Describe evidence carefully and invite multiple ways of participating.
