DROSIE'S BACKYARD SCIENCE

Lesson 7: Tiny Fly, Big Discoveries

Why scientists study fruit flies | Storybook pages 38–43

Name: _____ Date: _____

LET'S EXPLORE

Create a research-question mini-poster with one possible observation.

1. A model organism is…

_____

_____

2. What is one question you would investigate using fruit flies?

_____

_____

DRAW, DIAGRAM, OR GRAPH YOUR IDEA

FACILITATOR MINI-GUIDE

Lesson 7: Tiny Fly, Big Discoveries

Storybook pages 38–43 | Grades K–3; adaptable to 4–5

Learning goal

Discover why fruit flies are valuable for research on genes, development, movement, and aging.

Before reading

Invite children to share what they already know. Record questions without immediately correcting every guess.

During reading

Pause for careful observations, ask what the illustrations show, and distinguish what is visible from what is inferred.

After reading

Create a research-question mini-poster with one possible observation.

Adaptation

K–1: use drawing and oral responses. Grades 2–3: add labels and a sentence of evidence. Grades 4–5: discuss uncertainty, fair comparisons, or limitations.

Safety and accuracy

Use supervised, age-appropriate materials. Describe evidence carefully and invite multiple ways of participating.
